ABBREVIATIONS

R46,1: Volume 46, page 1
S. Afr.: South Africa

Antidorcas marsupialis, springbok, diet selection. (Davies *et al.*) R46, 165

Antidorcas marsupialis, springbok, productivity. (Skinner *et al.*) R46, 149

Antidorcas marsupialis, springbok, severe drought. (Skinner *et al.*) R46, 191

Antidorcas marsupialis, springbok, spatial utilisation. (Davies and Skinner.) R46, 115

Antidorcas marsupialis, springbok, temporal activity patterns. (Davies and Skinner.) R46, 133

Artificial reef, sediment texture and enhancement of interstitial meiofauna (Fricke *et al.*) R46, 27

BECKER, I. I., and KIRBY, R. A. study of hake population diversity using restriction endonuclease analysis of mitochondrial DNA. A practical application of molecular biology to a South African taxonomic problem. R46, 313.

Benthic macrofaunal communities, Bot River estuary. (De Decker.) R46, 231

Bot River estuary, S. Afr., breaching of mouth. (De Decker.) R46, 231

MACDONALD, I. A. W. The history, impacts and control of introduced species in the Kruger National Park, South Africa. R46, 251
Macrofaunal communities, Bot River estuary. (De Decker.) R46, 231
Macrophyte harvesting in Marina da Gama, Zandvlei, Western Cape. (Stewart and Davies.) R46, 35
Mammals, South African, mitochondrial DNA analyses for molecular taxonomy. (Essop, Emmanuel, and Harley.) R46, 291
Marina da Gama, Zandvlei, Western Cape, effect of macrophyte harvesting on invertebrates. (Stewart and Davies.) R46, 35
Meiofauna, artificial reef. (Fricke *et al.*) R46, 27
Merino sheep, *Ovis aries*, diet selection. (Davies *et al.*) R46, 165
Merino sheep, *Ovis aries*, productivity. (Skinner *et al.*) R46, 149
Merino sheep, *Ovis aries*, spatial utilisation. (Davies and Skinner.) R46, 115
Merino sheep, *Ovis aries*, temporal activity patterns. (Davies and Skinner.) R46, 133

MICROBIOLOGY

BECKER, I. I., and KIRBY, R. A study of hake population diversity using restriction endo-nuclease analysis of mitochondrial DNA. A practical application of molecular biology to a South African taxonomic problem. R46, 313
GRANT, W. S., DEMPSTER, Y. L., and DA SILVA, F. M. Use of protein electrophoresis in evolutionary systematics. R46, 295
RYBICKI, E. P. Introduction to the symposium on molecular approaches to taxomony. R46, 277
Mitochondrial DNA, hake population diversity. (Becker, and Kirby.) R46, 313
Mitochondrial DNA analyses for the molecular taxonomy of South African mammals. (Essop, Emmanuel, and Harley.) R46, 291
Molecular connectivity indices of organic pollutants. (Brown.) R46, 109
Molecular taxonomy, DNA approaches. (Harley.) R46, 283
Molecular taxonomy, mitochondrial DNA analyses of South African mammals. (Essop, Emmanuel, and Harley.) R46, 291
Molecules vs morphology in phylogenetics. (Crowe.) R46, 317
MONTEIRO, P. M. S. The potential for the use of high performance liquid chromatography in marine research. R46, 15
Morphology in phylogenetics. (Crowe.) R46, 317
MULLER, S. Taxonomy of the genus *Haliotis* in South Africa. R46, 69
Nuclear analytical chemistry. (Peisach.) R46, 1

OBITUARIES

Malan, Barend 'Berry'. (Mason.) R46, 335
Phillips, John. (Scott.) R46, 336
Schelpe, E. A. C. L. E. (Hey.) R46, 177
Woolley, Sir Richard van der Riet. (Evans.) R46, 338

OCEANOGRAPHY

FRICKE, A. H., KOOP, K., and CLIFF, G. Modification of sediment texture and enhancement of interstitial meiofauna by an artificial reef. R46, 27
